Call me about this when you have a minute. Morris is a crackhead who was trading sex for a rock when they encountered her over the weekend. She said the incident with our officer happened a couple of days ago. Sellers ran her on April 11th. We're trying to find her to do an interview.

Joe Hill said the last time our victim was run by MDC was on April 11th. Sgt. J. Sellers ran her. At the time, his AVL shows he was in the 2200 block of NE 24th St. This is not the time frame nor the location of the allegation. CIU stated they have not run her within the past 30 days on any of their computers. I am just waiting on a reply from DPS on the offline OLETS search. I will update you when I get more information.
